

Qom University of Medical Sciences

Qom-Iran

Faculties

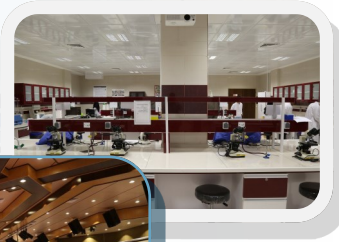

Since 1996

We are proud to emphasize that during studies and through an integrated approach, our students acquire subject knowledge, skills, and competencies for their future job activity, as well as the ability of independent thinking, critical evaluation, problem-solving skills and the ability to deal with development and scientific work, while respecting the highest ethical standards. Apart from the quality of the educational process and the pleasant study environment, studying in Qom is really enjoyable for the various religious and social activities.

Faculty of Medicine

A large portion of studies in the Faculty of Medicine is concerned with clinical medicine. The majority of students in this Faculty, in fact, aim to become clinical doctors. This faculty is trying to provide the best quality of education for its students by using its experienced faculty members and also the professors of basic sciences of some of the medical universities. The Faculty of Medicine is also a place where the educational, professional and scientific-research activities are parallelly performed and developed.
